

Joeri De Ruytter

Honeywell Aerospace Technologies

Address: Hermeslaan 1/H, 1831 Diegem, Belgium

Tel: +32 497 488 704

Email: Joeri.deruytter@honeywell.com

Website: www.honeywell.com

Since 2011 Joeri works Honeywell Aerospace Technologies, in the Technology Strategy & Innovations unit. He is responsible for the company's engagement in European and National research projects and programmes. This includes flagship programmes like SESAR and Clean Sky/Aviation, but also the UK ATI and German LuFo programmes.

Joeri is an active contributor to the ACARE INCO, ACARE WG1, EqIMG, UK ATI International Advisory Group, and a number of Task Forces or Committees from the ASD Civil Aviation Business Unit. He is Member of Vielle Tiges Belgium and the Royal Aeronautical Society, and Chairman of Royal Aeronautical Society Brussels Branch.

Before joining Honeywell, Joeri spent 15 years in the Air Traffic Management systems industry, working for different companies, including Frequents from Austria, Luciad from Belgium, Saab from Sweden, Siemens ADB from Germany, and HITT from the Netherlands. Since 2002, those activities also included European R&T projects, while he is also a frequently asked Expert Evaluator and Reviewer in European Framework Programmes since FP6.

Joeri graduated in 1996 from the University of Ghent with a Master Degree in Electronics, and a Master Degree in Avionics (through an Erasmus exchange programme with TU Delft). For over 20 years, he also holds an active Private Pilot License (EASA and FAA).
